Re: Compensatory smoking

Dear Mr. Gustafson:

We have listed in our inventory of expert reports a document entitled:

"Remarks on a proposed toxic substance index", authored by R.-A. Walk and W. Reininghaus. This document (7 pages, probably in German) was send in August 1990 to Dr. W. Fink, FTR, Neuchatel, Switzerland. The document relates to the same subject as the one by Dr. Walk that you cited.

So far we have located only 4 pages, which I include; the rest of our document might be among the documents sent to Kansas City in order to be copied.

Best regards,

Wolf Reininghaus

Attachment: 4 pages
